NATURE'S TOP "ANGLER" SHOWS HOW

While fishing at Injaka Dam near Hazyview in Mpumalanga we were trying the whole box of tricks such as top water, Texas, Carolina, Mojo and even Drop Shot, but we just could not beat this "angler" on the day. What a beautiful sight! We estimated its catch at just over a kilo.

LA FERME BASS

This is young Cade Labuschagne with a largemouth of about 3kg that he caught while fishing on his father's farm, "La Ferme" in Franschoek in the Western Cape. The farm's bass lake is being further developed and stocked and promises to soon be a great bass venue.
